
① Sport-Thieme® Baby Water Slide

Fun and sensible early stimulation for your baby. This slide's size means it can be safely used to promote the early development of children above the age of six months. As well as being lots of fun, the slide is useful for the stimulation of the balance system and reflex stimulation of the muscular system. The slide is made from a strong PVC film with 6 separate air chambers and heightened side walls for increased safety. The attached step-on flap acts as a further safety feature. 130x70x60 cm.

71 112 1823 Each

Attention! Only to be used in water in which the child is within its depth and under adult supervision.

② 'Swimi' Baby Swimming Ring

The Swimi is a specially shaped buoyancy aid and is used to help children up to 4 years old get used to the water. It is made up of an inner and outer air chamber with two safety valves. Swimi is made from a bright pink polyurethane film. Yellow.

Size 0, Children up to 12 months, ø 15 cm

✔ **Will not overturn in the water**

③ BabyDobber®

Safer swimming fun for young children. At last, a solution for all parents or carers who want to have fun in the water with young children safely and in a relaxed way. The BabyDobber now makes swimming with even the smallest children even more enjoyable! In the BabyDobber, a toddler can relax and play in the water. Thanks to its patented construction, the BabyDobber cannot overturn. If the child leans forward or wriggles around, the Babydobber always rights itself again. For children up to 11 kg. Fully-recyclable, strong material. Unsinkable. Complies with EN standard 13138-3. 60x60x37 cm, 2 kg.
