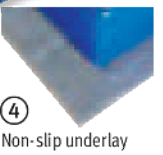
PU foam core bonded to PE foam

Yellow side made from canvas 100% polyester



④ Non-slip underlay

Special soft foam core

① Sport-Thieme® 'FIG' Landing Mat

Complies with EN 12503-1 Type 4 and 5 (12 + 15 cm thickness) as well as Type 6 (20 cm thickness). You should not use certain pieces of apparatus without the matching landing mats. Their area-elastic effect prevents a high sinking depth when landing, provides the best possible steadiness and is easy on the joints. Special sandwich design of the core with wide edge stabilisation made from composite foam all around. Upper side is made from skin-friendly amber-yellow velour (to FIG specification), glued to the core. Canvas material on the sides (100% polyester) with ventilation holes and zip on three sides. Anti-skid underside and Velcro connections on the corners guarantee optimum fit.

② Sport-Thieme® 'School Sport' Landing Mat

Manufactured to EN 12503-1 Type 4 and 5. The economical choice for schools. Upper side bright blue needle fleece, 100% polyester canvas on the sides, underside 100% polyester gymnastics mat material. With Velcro corners for attaching to other mats. Sandwich structured mat with reinforced edges. The mat has good stability, increased shock absorption and spreads the load evenly across the entire mat providing rotational freedom. There is a 2-year guarantee against tearing.

Recommendation
Insurance companies recommend buying landing mats to prevent sports injuries.

③ Sport-Thieme® Super Soft Landing Mat

A great value for money alternative with a special sandwich construction. The yellow side is made from 100% polyester canvas and filled with 50 mm light foam which is very firm for a secure positioning. The blue side is filled with 25 cm EN standard polyether foam, to be used as a soft floor mat. For additional safety we recommend the non-slip underlay. Size: 300x200x30 cm.

71 119 7004 Each

④ Anti-Slip Underlay

For super soft landing mats and soft mats. 300x96 cm.

71 119 7105 Each

⑤ Spieth 'Happy Landing' Soft Mat

Low-impact soft floor mat to be laid on top of landing mat. Cover made from PVC material and 100% polyester gymnastics mat material. Can be used on both sides. Core made from special soft PU foam. Approved thickness for women: 5 cm, thickness for men: 10 cm.
