1 | New! Sport-Thieme 'Urban' Street Hockey Sticks

For intensive outdoor use. Ideal for active breaks as well as for school and club sport. The universal hockey stick can be used by left- or right-handers and offers a good grip. The street hockey sticks are extremely sturdy thanks to, for example, the 3 screws that secure the wooden stick to the polypropylene blade. Sport-Thieme 'Urban' street hockey sticks can be used on hard surfaces such as concrete or asphalt.

Product information:
- Stick: Borneo wood
- Blade: high-impact polypropylene
- Approx. 0.8–1.2 kg

Guardian: approx. 122 cm

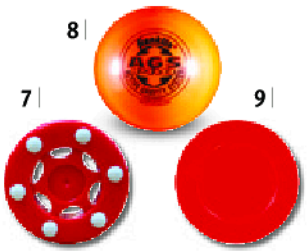
7 | Gliding Street Hockey Puck

Abrasion-proof puck, made from a special vinyl compound. With additional gliding pimples for more power. Ideal for smooth surfaces. Ideally suited to outdoor and indoor use. ø approx. 70 mm, approx. 124 g.
71 226 4325 Each

8 | 'AGS Gel' Street Hockey Ball

Made from high-quality vinyl with gel filling. The AGS design (Active Gravity System) prevents the ball from bouncing. This provides excellent ball control. The gel filling ensures a stable flight when taking shots. Ball swerve is minimised. ø approx. 70 mm, approx. 77 g. Orange.
71 226 4309 Each



9 | Street Hockey Puck

Abrasion-resistant puck made from high-quality vinyl compound. Can be used outdoors or indoors. ø approx. 70 mm, approx. 58 g. Orange.
71 226 4312 Each

10 | Street Hockey Goalkeeper's Mask

Goalkeeper's helmet made from impact-resistant plastic. **The helmet can be adjusted to fit different head sizes.** Black visor grille, in order to prevent reflection from the hall lights and to provide the goalkeeper with optimum visibility. Includes air vents under the helmet for ventilation purposes. From 10 years upwards. In order to make sure that the fit is correct, the foam pads supplied can be stuck into the helmet to adjust the size.
