

Swimming Aids for Babies & Children

Exclusive to Sport-Thieme

✓ Step-on flap for safety

1 | Sport-Thieme Baby Water Slide

Fun and sensible early stimulation for your baby. This slide's size means it can be safely used to promote the early development of children above the age of six months. As well as being lots of fun, the slide is used to stimulate the sense of balance and the reflexes of the muscular system. The slide is made from a strong PVC film with 6 separate air chambers and heightened side walls for increased safety. The attached step-on flap acts as a further safety feature. 130x70x60 cm.

71 112 1823 Each

Attention! Only to be used in water in which the child is within its depth and under adult supervision.

2 | SwimFin Swimming Aid

The 'shark fin' SwimFin helps the user adopt the correct horizontal position in the water. Suitable for getting used to the water and gaining confidence, not only for beginners but also for children who feel uneasy in the water. It positions the body in the correct way and is suitable for learning breaststroke and backstroke as well as butterfly. Complies with EN 13138

and EN 71. With elastic hook-and-loop straps. Length of hook-and-loop straps 78 cm.

3 | Finis 'Booster' Children's Swimming Fins

The first fins for swimming lessons. Using these short fins helps beginners learn the correct leg strokes right from the start. The closed foot section ensures the fins sit securely on the user's feet, while

the openings on the underside provide plenty of freedom for little toes. Classic fin shape. Made of rubber.
