WxDxH: 79x79x79 cm. Can hold up to approx. 37 kg.
71 220 9601 Each

Our choice!

- ✓ **Firm foam**
- ✓ **With hygienic cover**

5 | Sport-Thieme Exercise Roller

For exercising, rehabilitation and Bobath therapy, for automatic leg responses, head and core body control. Popular in nurseries, pre-schools and primary schools used in combination with children’s exercise mats. Very firm foam core, therefore easy to handle. Hygienic, washable tarpaulin (100% polyester) cover.

71 127 5807 L: 100 cm, ø 30 cm Each

71 127 5810 L: 100 cm, ø 40 cm Each

71 127 9506 L: 100 cm, ø 50 cm Each

6 | Ledraplastic Physio Roll

A new play and therapy apparatus with a maximum load of 300 kg. Many different variations of play and exercising are possible: roll on it, jump on it, balance on it, lie on it on your back or stomach, also for vaulting and rocking, etc. With stopper.

ø 40 cm, red, L: 65 cm 71 109 1700 Each

ø 55 cm, yellow, L: 90 cm 71 109 1713 Each

ø 70 cm, blue, L: 115 cm 71 109 1726 Each

Attention! Not suitable for children under 3 years. Contains individual parts that may be swallowed. Danger of suffocation.

7 | Sport-Thieme ‘Vita-Roll’

Ideal for use in spinal exercises: the roll allows the back muscles to stretch and relieves the strain on the intervertebral discs. The specific dimensions create a perfect anatomic curve to the surface allowing you to always lay at least 4 vertebrae on it. When positioned upright, the roll can also be used as a seat or side table. It is also suitable for use as a building block for children. PU foam with a solid core. Cover: synthetic leather (100% polychloride). Available colours: rosewood, pearl or pink.

ø 40 cm, H: 48 cm.
71 263 5301 Rosewood Each

71 263 5314 Pearl Each

71 263 5327 Pink Each
