

New!**TeamGym**

TeamGym is a team sport in gymnastics that is particularly popular in Scandinavia and is also growing in popularity elsewhere in Europe. It's all about the concept of a team and participants always perform gymnastics to music. One team is made up of 4–12 people (female, male or mixed). TeamGym consists of the following disciplines:

- F** Floor
- T** Tumbling
- T** Trampette

36 springs

New!

40 springs

New!

Standard castors

T Trampette

In the 'Trampette' discipline, all team members perform jumps using a special trampoline which is placed at the end of a track. The trampoline usually has a steep angle for high jumps. Parts of this programme are performed using a special vaulting table, which is up to 1.65 m tall – taller than gymnastics vaulting tables – and is placed behind the trampoline. 3 rounds are performed.

Special castors

**2 | New! PE-Redskaber 'Dorado' Minitramp**

A high-performance trampoline with firm trampoline bed for use in TeamGym. Works silently. Height and angle are easily adjustable: 65, 70, 75, 80 cm, excellent rebound characteristics, strong frame padding, non-slip base feet. Can be disassembled without tools. 36 springs: for juniors and club sport, 40 springs: for elite gymnasts. Each approx. 79 kg.

36 springs (yellow bed) **71 294 3901** Each

40 springs (red bed) **71 294 3914** Each

3 | New! PE-Redskaber 'Tarpan' Vaulting Table

TeamGym vaulting table. Height-adjustable between 110–165 cm assisted by integrated gas springs, meaning it can be adjusted by just one person. Incl. protective column padding. Base complies with max. length of 120 cm specified by the FIG.

• **Standard castors:** Castors on the sides for transporting sideways

• **Special castors:** Raise the frame using a lever incl. base frame padding
