

For children

For adults

- ✓ Ergonomic design
- ✓ Padded canvas
- ✓ Maximum weight capacity 100 or 200 kg
- ✓ For swinging, rocking and spinning

1 | Sport-Thieme Suspended Swing

Swinging, rocking, turning and 'flying' are all great fun! The swing can also be set in motion by using your hands on the ground. Games – such as picking up bean bags, throwing at targets, etc. – are also possible while swinging. When used in therapy, children with disabilities can also build up valuable experience using this swing. Strengthens muscles and can be used in all body positions such as lying face down, on your back or sitting up. The suspended swing can be hung separately on both sides on existing gymnastics

rings or via a one-point hanging system. This ensures that the swing is completely secure. Even nervous children will soon gain confidence when swinging in the suspended swing. Individually adjustable. Cover: padded canvas (100% cotton). For children (LxW): 98x75 cm, can support up to 100 kg, TÜV approved. For adults (LxW): 153x79.5 cm, can support up to 200 kg.

Playing tips

Hang or tie colourful chiffon scarves to the net. Who can get the green scarf quickest? Who is skilled enough to untie the scarf from the net? Use soft mats as fall protection.
