Sport-Thieme vaulting horses

Comply with DIN EN 12196. The 160-cm body has special padding covered in real leather. Height-adjustable from 110–170 cm in 5-cm increments. One of the legs can be adjusted to any height to enable levelling on uneven ground. An innovative leg design made of wood or steel featuring aluminium inlets and tensioning chains provide stability. Non-marking rubber base feet protect the hall floor. 2 built-in castors enable the vaulting horses to be moved around easily.
