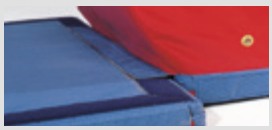
Vario round blocks

Reivo hook-and-loop system



Guarantees an absolute secure connection between Reivo Combi gymnastics mats and Reivo Combi landing mats.

We also recommend:
Reivo Combi gymnastics mats, pages 354–355
Reivo Combi landing mats, page 356

In 4 different sizes

1 | Reivo Vario Round Block

This piece of equipment promotes the learning of important movement skills with its great stimulative nature. The soft yet flexible core guarantees secure and worry-free learning and practising. High-quality PU foam core and strong composite foam base. Cover made of strong 100% polyester Polygrip. Cover of the base is made of non-slip, textured 100% polyester gymnastics mat material (complies with EN 12503-5 and EN 12503-6 standards). Integrated hook-and-loop fastening safety system means there is a smooth connection with Reivo Combi gymnastics mats as well as Reivo landing surfaces. The round blocks can also be joined to each other.
