taching Reivo
landing mats

✓ Can be freely combined thanks to hook-and-loop system

1 | Reivo Combi Soft Mat

Made to comply with EN 12503-1 type 7.

This mat offers optimal safety during gymnastics and uncontrolled landings.

Mat information: made of high-quality polyether foam (20 kg/m³), top made of strong blue tarpaulin (100% polyester), underside made of non-slip gymnastics mat material (100% polyester). Air holes on the sides allow air to be released upon landing. Comes with 4 tear-proof carry straps. Blue.

Complete with hook-and-loop fastening safety system: integrated, tear-resistant sewn-in joint and connector flaps on all sides ensuring connection to other mats is seamless. With 4 additional fixing flaps for compactly combining the Reivo Combi landing mat. Integrated straps for compactly combining 2 Combi soft mats on top of one another. The top features a 10-cm fleece strip.

Also available as 'half' mats with a width of 150 cm – ideal for transporting and storage. 2x 150-cm 'half' mats make up one standard mat.

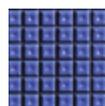

71 119 2230	200x150x25 cm	Each
71 119 2227	200x150x30 cm	Each
71 119 2214	200x300x25 cm	Each
71 119 2201	200x300x30 cm	Each

Benefits of Reivo Combi soft mats

- Integrated joint flaps for compactly connecting your soft mats – no need for fleece strip and no loose flaps. Fixing loops cannot be used as carrying handles.
- Four additional joining flaps for easily combining Reivo Combi landing mats
- Landing mat to prevent spiral fractures

Illustrated example shows 2 Reivo 'Super' Combi soft mats

2 | Reivo 'Super' Combi Soft Mat

Made to comply with EN 12503-1 type 7.

The mat for indoor and outdoor use, also ideal for high jump. For outside use, a rain hood and slatted frame are recommended. Core made of high-quality polyether foam (20 kg/m³) with an air-chamber system, making it super-soft. 100% polyester

canvas material – underside is 100% polyester gymnastics mat material. 100% polyester mesh material on the sides of the mat ensures the air is expelled perfectly upon landing.

Complete with hook-and-loop fastening safety system: integrated, tear-resistant sewn-in joint and connector flaps on all

sides ensuring connection to other mats is seamless. With additional fixing straps (not included), the protective mat 3| can be securely attached. The top contains a 20-cm fleece strip all the way around. 200x300x50 cm.
