

Football Training

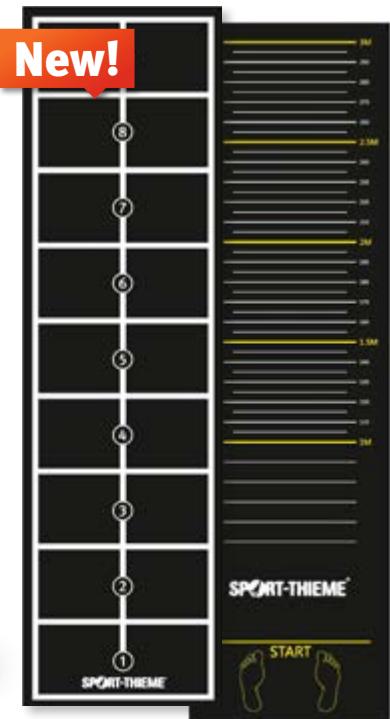

1 | Sport-Thieme Football Dummy

A must-have for all football training.

Quick to assemble and disassemble, easy to transport and very robust. Ideal training technique, speed, movement and coordination as well as goalkeeping training and free-kick exercises. The mesh dummy is attached to the plastic pole using hook-and-loop fasteners. The pole can also be used for slalom training and be separated using a quick-click technique to be stored away compactly. Its metal ground anchor provides stability on grass. Available in 2 sizes.

4 | New! Sport-Thieme Long Jump and Coordination Mat

A versatile indoor training mat made of non-slip PVC. Top surface for coordination training has 9 areas and marking points for throwing games. Underside features markings for measuring jumping distance in 5-cm increments and foot shapes to indicate the take-off point. Light-weight and compact as it can be rolled up. Dimensions (LxWxH): 350x100x0.4 cm, approx. 1.4 kg.
