

## Sport Grupa Sure Shot basketball units

- ✓ FIBA-approved
- ✓ For training and competition
- ✓ Various playing heights
- ✓ Professional quality

### 1 | New! Sport Grupa Sure Shot '790 Macshot' Basketball Unit

The ideal unit for schools and clubs. This steel unit is made to the highest quality, meaning it is sturdy and will withstand anything. The padding on the stand and backboard provides protection for the basketball player during every throw or lay-up. The unit is easy to move thanks to the nylon castors, and the hoop can be assembled and disassembled with ease using a screw crank mechanism. The special buckles reinforce the unit so that it won't topple over during a slam dunk.

The backboard is made of reinforced glass and is housed in a strong aluminium frame. This frame is directly connected to the arm, protecting the backboard itself from any vibration. The long arm means the hoop is free-standing and prevents the base from getting in the way. This basketball unit boasts a modern design.

### 3 | New! Sport Grupa Sure Shot '795 Liteshot' Basketball Unit

For training and competition. This unit is made of powder-coated, durable steel – allowing it to withstand anything. The basketball unit provides safety during any throw thanks to its long arm and the padding on the stand and backboard. The backboard is made of reinforced glass and is housed in a strong aluminium frame. The target and edge lines burnt into the glass won't fade, even when the unit is used frequently in schools and clubs.

The basketball unit can be folded and stored easily, making it the optimal solution for smaller equipment rooms. Its practical nylon castors mean it can be moved with ease; it boasts a quick-release fastener, which allows the height of the hoop to be quickly and easily set.

### 2 | New! Sport Grupa Sure Shot '780 Minishot' Basketball Unit

The all-rounder for any club. This steel unit is made to the highest quality, making it particularly robust. Its folding design makes the basketball unit ideal for storing in equipment rooms. Nylon castors on the underside of the stand allow it to be transported with ease. Both the stand and the backboard are padded to protect players.

The backboard made of reinforced glass features particularly durable target and edge markings, which are burnt into the glass and therefore won't fade. The basketball unit is tested in line with EN 1270 and complies with all FIBA requirements, making it perfect for any competition.
