THE NEW FUN SPORT DEVICE

The new fun sport device for all fans of freaky movements and challenges, for free riders – quite addictive! **pedalo®-surf** combines the characters of surfboard, skateboard and snowboard.

The specific pedalo® IG-guidance of the board, matched with the multifunctional roll which allows moving in all directions, provides the base for a maximum free moving space.

Rolling, tilting and turning in all directions, lift off and come down safely, lots of different movements are challenging your balance skills. The board runs on two skids, which are integrated in the guiding roll, what gives the necessary control and safety in handling. Also additional quality features such as end-stop and anti-slip surface attests the pedalo®-Surf his uniqueness.

Item no. 653 146

Specification:

Board 70x30 cm, multiplex birch wood 12mm, surface in clear lacquer with anti-slip covering, rubber stopper. Oval roll 12x30 cm beech wood. Loadable to 120 kg, weight 4.3 kg. We recommend to use a mat as base when practicing.

pedalo®-surf the training addition for snowboarder, surfer and skateboarder.

pedalo®-surf is the perfect training device for snowboarder, skater, surfer and everyone who want to put their balance to the test.

The reaction, anticipation and sensitive use of balance are required with the pedalo®-surf at any time.

The constant challenge to control the pedalo®-surf absolutly in every situation and to connect this always with new elements of movement, is a pure adrenaline adventure for EVERYONE who wants to exhaust his personal limits. Therefore, the pedalo®-surf is more than just a fun device. It provides many basics of movement and experiences of body, which are helpful in sports and everyday life.

Find your way

Whether in step position, parallel position or, how the pros do, one-legged – the pedalo®-surf makes a lot of fun and is guaranteed to keep you in movement. Only by skillfully shifting the gravity and using the whole body, you will dominate the pedalo®-surf.

Very soon you will realize that your improving technology and safety is much better than your previous use of force. You complete the practices in a playful elegance. For many a long, characterized by repetitions but rewarding journey. Find your way – Have lots of fun!

Training information

First, try to balance the board. If you have it under control, begin to put a strain on your forefoot and heel by turns. For getting a feeling of forward and backward tilting. Start now with controlled swinging left-right by easily loading and relieving your legs. If it works perfect, try now, while swinging, to put a strain on your forefoot or heel.

You will notice that you already start the first rotation movements. You can enhance them by rotating your trunk. If you have successfully mastered the basic exercises, there are almost no limitations as to exercise possibilities.
