

F Floor

In the 'Floor' discipline, all team members perform a floor exercise on a surface measuring 14x16 m. The rhythmic and gymnastics elements must be synchronised and performed smoothly. Balance, technique and execution as well as dynamic movement are all key to success.

DIN EN 12553-1 Typ 2	Suitable for:	Surface:	Core:
	schools and clubs	needle fleece	light foam

4 | New! Sport-Thieme 'TeamGym 14x16 m' Floor Gymnastics Mat

T Tumbling

In the 'Tumbling' discipline, all team members perform various jumping exercises set to music on a 15-m-long AirTrack or fibreglass tumbling track. The acrobatic elements are performed in 3 rounds. In addition to the execution of each element, another key success factor is the gymnasts' ability to maintain their speed. The last element finishes in the landing zone.

6 |

Length of each AirTrack: 15 m
6 | WxH: 200x20 cm
7 | WxH: 200x30 cm
8 | WxH: 280x30 cm

5 | New! PE-Redskaber 'Fiber' Tumble Track

Fibreglass tumble track for optimal gymnast performance in TeamGym. High rebound effect, stackable steel frame and rolling carpeted foam mats. Top surface consists of 2 foam mats, 15 steel panels measuring 100x200 cm incl. fibreglass, 2 vinyl skirts on the sides of the track. LxWxH: 1500x200x33 cm, approx. 900 kg.

**6 | New! Sport-Thieme AirTrack**

The great-value alternative for tumbling. A long, air-filled cushion. The particularly soft and elastic surface allows you to tumble and perform various gymnastics techniques without any risk of injury. Reduces the forces generated when jumping and landing, preventing the joints from becoming overstrained.

- Track length: 15 m
- Track height: 20 cm
- Track width: 200 cm
- Inflation time: approx. 3 minutes (using a high-performance blower for a 12x2-m track)
- Incl. professional, handheld blower, adapter and bag
